

SURYAKANTA BALA

Aspiring Full-Stack Web Developer & Software Engineer

Location: Cuttack, Odisha | **Phone:** +91 8260695250 | **Email:** suryabala912@gmail.com
GitHub: github.com/Suryakanta-creator

PROFESSIONAL SUMMARY

Goal-driven and tech-savvy Computer Science undergraduate with strong foundations in Core Java, Object-Oriented Programming, and modern full-stack web development (HTML5, CSS3, JavaScript, React). Proven track record of architecting and deploying responsive web applications on Vercel with clean UI/UX and RESTful data workflows. Eager to leverage technical problem-solving skills, structured database modeling (MySQL), and rapid learning aptitude to contribute effectively as a Web Developer.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

DRIEMS University, Cuttack, Odisha

Pursuing

Higher Secondary Certificate (Class XII / Science)

Kalinga Bharati Residential College (KBRC), Cuttack, Odisha

Completed

Secondary School Examination (Class X)

Odisha Adarsha Vidyalaya (OAV), Odisha

Completed

TECHNICAL SKILLS

Programming Languages:	Core Java (OOPs, Collections, Exception Handling), JavaScript (ES6+), SQL, HTML5, CSS3
Web & Frontend:	React.js, Tailwind CSS, Responsive Web Design, Vite
Developer Tools & Ops:	Git & GitHub, Vercel Deployment, VS Code, REST APIs, Chrome DevTools
Databases:	MySQL, Relational Database Design (ER Modeling, Normalization, Query Optimization)
Core CS Concepts:	Data Structures & Algorithms, Object-Oriented Analysis & Design (OOAD), DBMS, Software Engineering

FEATURED PROJECTS

Krushī Seva — Digital Agricultural Platform

Live Production

[Live Demo](#) | [GitHub Repo](#)

Tech Stack: JavaScript, React, Tailwind CSS, REST APIs, Vercel

- Designed and engineered a dedicated web application providing accessible digital agricultural solutions and services for farmers.
- Built an intuitive, mobile-first responsive user interface ensuring optimal accessibility and fluid cross-device performance.
- Implemented interactive service workflows, modular UI components, and state management for seamless navigation.
- Automated continuous deployment pipeline utilizing Vercel for high reliability, fast edge delivery, and uptime.

Cosmic World — Real-Time Astronomical & Space Tracker

Live Production

[Live Demo](#) | [GitHub Repo](#)

Tech Stack: React, Tailwind CSS, RESTful APIs, Axios, Vercel

- Developed an interactive web tracking dashboard to monitor near-Earth asteroids and celestial trajectory metrics in real time.
- Integrated public astronomical API feeds, parsing and visualizing trajectory data, approach dates, and hazard parameters.
- Constructed dark-mode astronomy UI components with dynamic filtering, dynamic sorting, and responsive visualization cards.

Pack Check AI — Smart Packaging Verification & Inspection Platform

Live Production

[Live Demo](#) | [GitHub Repo](#)

Tech Stack: React.js, Tailwind CSS, AI/Vision API Integration, JavaScript, Vercel

- Engineered an intelligent visual inspection and verification platform for automated quality checks and packaging validation.
- Developed a responsive analytics dashboard providing real-time verification logs, diagnostic metrics, and status feedback.
- Integrated low-latency API workflows with robust client-side state handling to deliver continuous edge performance.

KEY STRENGTHS & TECHNICAL COMPETENCIES

Full-Stack Lifecycle

Proficient in transforming user requirements into structured schemas, interactive UI interfaces, and cloud-hosted deployments.

Agile & Rapid Learning

Quick to master modern web frameworks, developer tooling, and API integrations with strong debugging skills.
